Sec. 18-34. - Rabies vaccination required for dog license.

- (a) Generally. The owner of a dog shall have the dog vaccinated against rabies by a veterinarian within 30 days after the dog reaches four months of age and revaccinated within one year after the initial vaccination. If the owner obtains the dog or brings the dog into the village after the dog has reached four months of age, the owner shall have the dog vaccinated against rabies within 30 days after the dog is brought into the village, unless the dog has been vaccinated as evidenced by a current certificate of rabies vaccination. The owner of a dog shall have the dog revaccinated against rabies by a veterinarian before the date that immunization expires as stated on the certificate of vaccination or, if no date is specified, within two years after the previous vaccination. The certificate of vaccination shall meet the requirements of Wis. Stats. § 95.21(2).
- (b) Issuance of certificate of rabies vaccination. A veterinarian who vaccinates a dog against rabies shall complete and issue to the owner a certificate of rabies vaccination bearing a serial number and in the form approved by the village and stating the following:
 - (1) The owner's name and address.

 - (1) The same serial number as the certificate;
 - (2) The year the vaccination was given; and
 - (3) The name, address and telephone number of the veterinarian.
- (e) Attachment of tag. The owner shall attach the rabies vaccination tag or a substitute tag to a collar, and a collar with the tag attached shall be kept on the dog at all times. However, this requirement does not apply to a dog during competition or training, to a dog while hunting, to a dog securely confined indoors or to a dog securely confined in a fenced area. The substitute tag shall be of a durable material and shall contain the same information as the rabies vaccination tag. The requirements of this subsection do not apply to a dog which is not required to be vaccinated under subsection (a) of this section.
- (f) Duplicate tag. The veterinarian may furnish a new rabies vaccination tag with a new serial number to an owner in place of the original tag upon presentation of the certificate of rabies vaccination. The veterinarian shall then indicate the new tag number on the certificate and keep a record in the file.
- (g) Cost. The owner shall pay the cost of the rabies vaccination and the cost associated with the issuance of a certificate of rabies vaccination and the delivery of a rabies vaccination tag.

Sec. 18-35. - Issuance of dog and kennel licenses.

- (a) Dog licenses. Dog licenses shall be issued in accordance with the following:
 - (1) It shall be unlawful for any person in the village to own, harbor or keep any dog more than five months of age without complying with the provisions of Wis. Stats. §§ 174.05—174.69 relating to the listing, licensing and tagging of dogs.

- (2) The owner of any dog more than five months of age on January 1 of any year or five months of age within the license year shall annually, or on or before the date the dog becomes five months of age, pay a license tax as prescribed in section 1-22 and obtain a license.
 - (3) License fees for cats and dogs shall be as follows: Neutered male or spayed female \$5.00. Unneutered male or unsprayed female \$10.00. The license year commences on January 1 and ends on the following December 31.
 - (4) *Late fees.* Late fees will be issued in accordance with the following:
A second notice will be issued and a late fee of \$5.00 will be assessed for each dog or cat not licensed by March 31st. A third notice (via certified mail) will be issued and an additional late fee of \$10.00 will be assessed for each dog or cat not licensed by April 30th.
 - (5) Upon payment of the required license tax and upon presentation of evidence that the dog is currently immunized against rabies, as required by section 18-34, the clerk-treasurer shall complete and issue to the owner a license for such dog containing all information required by state law. The clerk-treasurer shall also deliver to the owner, at the time of issuance of the license, a tag of durable material bearing the same serial number as the license, the village in which issued and the license year.
 - (6) The owner shall securely attach the tag to a collar, and the collar with the tag attached shall be kept on the dog for which the license is issued at all times, except as provided in section 18-34(e).
 - (7) The fact that a dog is without a tag attached to the dog by means of a collar shall be presumptive evidence that the dog is unlicensed. Any law enforcement or humane officer shall seize, impound or restrain any dog for which a dog license is required which is found without such tag attached.
 - (8) Notwithstanding subsections (a)(1) through (6) of this section, every dog specifically trained to lead blind or deaf persons is exempt from the dog license tax, and every person owning such a dog shall receive annually a free dog license from the clerk-treasurer upon application therefor.
 - (9) Cat licenses will follow the same regulations and fees as dogs.
- (b) *Kennel licenses.* Kennel licenses shall be issued in accordance with the following:
- (1) The term "kennel" means any establishment wherein or whereon more than three dogs are kept.
 - (2) Any person who keeps or operates a kennel may, instead of the license tax for each dog required by this article, apply for a kennel license for the keeping or operating of the kennel. Such person shall pay for the license year a license tax as prescribed in section 1-22. Upon payment of the required kennel license tax and, if required by the common council, upon presentation of evidence that all dogs over five months of age are currently immunized against rabies, the clerk-treasurer shall issue the kennel license and a number of tags equal to the number of dogs authorized to be kept in the kennel. Kennels may only be located in residential areas following a public hearing and approval by the common council; the common council may attach conditions to such approval as a conditional use under article II of chapter 14 pertaining to zoning.
 - (3) The owner or keeper of a kennel shall keep at all times a kennel license tag attached to the collar of each dog over five months old kept by the owner or keeper under a kennel license, but this requirement does not apply to a show dog during competition, to a dog securely confined indoors or to a dog securely confined in a fenced area. These tags may be transferred from one dog to another within the kennel whenever any dog is removed from the kennel. The rabies vaccination tag or substitute tag shall remain attached to the dog for which it is issued at all times, but this requirement does not apply to a show dog during competition, to a dog securely confined indoors or to a dog securely confined to a fenced area. No dog bearing a kennel tag shall be permitted to stray or to be taken anywhere outside the limits of the kennel unless the dog is on a leash or temporarily for the purposes of hunting, breeding, trial, training or competition.
 - (4) No kennel license shall be issued to the keeper or operator of a kennel who fails to provide proper food and drink and proper shelter for the dogs in such kennel or who neglects or abandons such dogs. Any designated official shall investigate any complaints regarding the failure to maintain proper standards or investigate any kennel premises upon his/her own initiative. Expressly incorporated by reference in this section as minimum standards for kennel keepers or operator are the relevant provisions of statutes.
 - (5) A condition of a kennel license shall be that the licensed premises may be entered and inspected at any reasonable hour by appropriate village officials without any warrant, and the application for a license under this subsection (b) shall be deemed a consent to this condition. Any refusal to permit such inspection shall automatically operate as a revocation of any license issued under this subsection (b) and shall be deemed a violation of this section. Should any kennel be found to constitute a public nuisance, the license shall be revoked and the nuisance abated pursuant to ordinance.

The clerk-treasurer shall assess and collect a late fee of \$5.00 from every owner of a dog five months of age or over if the owner fails to obtain a license prior to April 1 of each year or within 30 days of acquiring ownership of a licensable dog or if the owner fails to obtain a license on or before the dog reaches licensable age. Such late fee shall be charged in addition to the required license fee.

Sec. 18-37. - Rabies quarantine.

- (a) Dogs and cats confined. If a district is quarantined for rabies, all dogs and cats within the village shall be kept securely confined, tied, leashed or muzzled. Any dog or cat not confined, tied, leashed or muzzled is declared a public nuisance and may be impounded. All officers shall cooperate in the enforcement of the quarantine. The clerk-treasurer shall promptly post in at least three public places in the village notices of quarantine.
- (b) Exemption of vaccinated dog or cat from village quarantine. A dog or cat which is immunized currently against rabies, as evidenced by a valid certificate of rabies vaccination or other evidence, is exempt from the village quarantine pursuant to subsection (a) of this section if a rabies vaccination tag or substitute tag is attached to the dog's or cat's collar.

The officer shall attempt to kill the animal in a humane manner and in a manner which avoids damage to the animal's head.

 - (2) Health risk to humans. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal bit a person, the custodian of an isolation facility or the owner shall keep the animal under strict isolation under the supervision of a veterinarian for at least ten days after the incident occurred. In this subsection, the term "supervision of a veterinarian" includes, at a minimum, examination of the animal on the first day of isolation, on the last day of isolation and on one intervening day. If the observation period is not extended and if the veterinarian certifies that the dog or cat has not exhibited any signs of rabies, the animal may be released from quarantine at the end of the observation period.
 - (3) Risk to animal health.
 - a. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal and if the dog or cat is not currently immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 180 days. Then the owner shall have the animal examined by a veterinarian and vaccinated against rabies.
 - b. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal but if the dog or cat is immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 60 days. The owner shall have the animal revaccinated against rabies as soon as possible after exposure to a rabid animal.
 - (4) Destruction of dog or cat exhibiting symptoms of rabies. If a veterinarian determines that a dog or cat exhibits symptoms of rabies during the original or extended observation period, the veterinarian shall notify the owner and the officer who ordered the animal quarantined, and the officer or veterinarian shall kill the animal in a humane manner and in a manner which avoids damage to the animal's head. If the dog or cat is suspected to have bitten a person, the veterinarian shall notify the person or the person's physician.
- (e) Delivery of carcass; preparation; examination by laboratory of hygiene. An officer who kills an animal shall deliver the carcass to a veterinarian or local health department. The veterinarian shall prepare the carcass, properly prepare and package the head of the animal in a manner to minimize deterioration, arrange for delivery by the most expeditious means feasible of the head of the animal to the state laboratory of hygiene and dispose of or arrange for the disposal of the remainder of the carcass in a manner which minimizes the risk or exposure to any rabies virus. The laboratory of hygiene shall examine the specimen and determine if the animal was infected with rabies. The state laboratory of hygiene shall notify the local health department, which will in turn notify the appropriate parties.

- (f) Cooperation of veterinarian. Any practicing veterinarian who is requested to be involved in the rabies control program by an officer is encouraged to cooperate in a professional capacity with the village, the laboratory of hygiene, the local health department, the officer involved and, if the animal is suspected to have bitten a person, the person's physician.
- (g) Responsibility for quarantine and laboratory expenses. The owner of an animal is responsible for any expenses incurred in connection with keeping the animal in an isolation facility, supervision and examination of the animal by a veterinarian, preparation of the carcass for laboratory examination and the fee for the laboratory examination.
